Notes

Article 16(3) of the ESMA Regulation requires national competent authorities to inform us whether they comply or intend to comply with each guideline or recommendation we issue. If a competent authority does not comply or does not intend to comply it must inform us of the reasons. ESMA decides on a case by case basis whether to publish reasons.

Updates of this compliance table will be published accordingly when necessary.

In the interest of transparency, if a competent authority continues to intend to comply after the application date, it will be considered “non-compliant” unless (A) the guidelines relate to a type of institution or instruments which do not currently exist in the jurisdiction concerned; or (B) legislative or regulatory proceedings have been initiated to bring any national measures necessary to comply with the guidelines in force in the jurisdiction concerned.
