1. The Authority

ESMA is an independent EU Authority that was established on 1 January 2011. ESMA's mission is to enhance investors' protection and promote stable and orderly financial markets. This mission is derived from ESMA's founding Regulation⁴ and encompasses three objectives:

- **Investors' protection:** to have the needs of financial consumers better served and to reinforce their rights as investors while acknowledging their responsibilities;
- **Orderly markets:** to promote the integrity, transparency, efficiency, and well-functioning of financial markets and robust market infrastructures, and
- **Financial stability:** to strengthen the financial system in order to be capable of withstanding shocks and the unravelling of financial imbalances while fostering economic growth.

ESMA achieves its mission within the European System of Financial Supervision (ESFS) through active co-operation with National Competent Authorities (in particular with securities market regulators) as well as with the European Banking Authority (EBA) and the European Insurance and Occupational Pensions Authority (EIOPA). ESMA has a unique position within the ESFS as it focuses on the securities and financial markets dimension and the overarching European aspects of these objectives. For further information, please refer to ESMA's website: <http://www.esma.europa.eu>

¹ According to the Article 2(f) of the [Conditions of Employment of Other Servants \(CEOS\)](#) of the European Union.

² Temporary agents may be engaged under their first contract for a fixed period of 5 years. Any further renewal shall be in principle for an indefinite duration.

Probationary period for the first contract is nine months..

³ The validity of the reserve list may be extended.

⁴ Regulation (EU) No 1095/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Securities Markets Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/77/EC.

2. Job framework and profile

ESMA is organising a selection procedure to recruit **Senior Supervision Officer** in the Supervision Department, and plans to establish a list of suitable candidates, which can be employed in the future.

The Supervision Department is responsible for the registration and ongoing supervision of credit rating agencies (CRA) and trade repositories (TR). Additional supervisory mandates under the Securities Financing Transactions Regulation (SFTR) and the STS Securitisation Regulation will be added in the course of 2018 and 2019.

The Department consists of two areas: 1) the Monitoring and Strategy team is responsible for the day-to-day supervision and related risk analysis of all registered entities; 2) the Investigations Unit is responsible for the assessment of registration applications and conducting targeted investigations. The Department is expected to reach 36 individuals in 2018.

ESMA applies a risk-based approach to the supervision of activities of supervised entities. We run a thorough registration process for new entities. Following registration ESMA conducts targeted investigations after a clear identification and prioritisation of risks. This risk-based approach requires collective analysis and intense interaction by the relevant risk, policy and supervisory teams within ESMA and fully cooperates with relevant (non-)EU competent authorities. We expect to expand our onsite presence in the coming years. ESMA works on the basis of supervisory targets and evaluates continuously its supervisory activities to further improve the effectiveness of its supervisory operations. ESMA applies enforcement in a proportionate and effective way.

ESMA is looking for candidates with experience in the financial markets with a strong motivation to contribute to supervision of credit rating agencies and trade repositories at EU level. In particular, we are looking for a candidate with professional experience in risk assessment and pricing/valuation in the securities, derivatives and/or credit markets.

The successful candidate is expected to contribute **significantly or where appropriate lead ESMA's supervisory projects (e.g. investigations, registrations, compliance and risk assessments, as explained above)**, thus effectively achieving supervisory objectives.
