Transaction reporting

Question

In the case of a transaction on an OTC derivative contract (MIC code-field 36 = “XXXX”. These are all derivatives falling under MiFIR Article 26(2)(b) and (c).), what is expected in the

transaction report when any of the following characteristics of that contract is changed: fields 50 to 56 of annex 2 of CDR 2017/590?

[ESMA 70-1861941480-56 MiFIR data reporting Q&A, Q&A 24.5]

When any of those characteristics of the contract change, the transaction thereof should be considered as a new contract and therefore two transaction reports are expected:

- One materializing the closing out of the initial derivative contract (swapping the buyer and the seller).
- One for the opening of the new contract with the new characteristics.
