A put on hold confirmation is not required for intra-day short sales provided that the conditions specified in Article 6(3) of the ITS are met. However, if a put on hold confirmation is nevertheless sought for an intra-day short sale, ESMA considers that it is not necessary for the party intending to undertake the short sale to provide a confirmation that the short sale will be covered by purchases during the same day. It would, however, be necessary to comply with all the other applicable requirements laid down in the implementing technical standards, including in particular seeking a locate confirmation for the shares.
