Original language

The third indent of paragraph 18 of the Guidelines foresees that funds using “sustainable” terms should commit to invest meaningfully in sustainable investments referred to in Article 2(17) of the SFDR. While national competent authorities should carry out a case-by-case analysis of how any sustainability-related term is used in the name of a fund, they may find that investment funds with "sustainable" terms in their names investing less than 50% of the proportion of investments in sustainable investments are not "meaningfully investing in sustainable investments". That amount could be higher, subject to the circumstances of the case.
