Article 3 (21)

Subject Matter
Definition on ICT services

Question
Article 3 (21) of DORA defines that 'ICT services' means digital and data services provided through ICT systems to one or more internal or external users on an ongoing basis.

It is not clear whether "digital and data services" should be interpreted as:
Version one: either digital or data services (so two different of sets of activities or
Version two: services which need to be both: digital service and parallel/in the same time data service.
