Regarding the requirement to clear at least a representative number of trades, should the trades be representative of the activity of the group or of the activity of the individual entities within the group?

ESMA Answer

Original language

As clarified in Recital 12 of Regulation (EU) 2024/2987, the representativeness requirement referred to in Article 7a(3), point (d), of EMIR applies at entity level and should be fulfilled by the entity that has been determined to be subject to the active account requirements in accordance with Article 7a(1) of EMIR.

The overall activity of the group as referred to in Article 7a(2) should only be taken into account to determine whether the entity that is part of that group is subject to the obligations in relation to Article 7a(2) of EMIR. An entity subject to the representativeness requirement should determine the number of transactions it needs to clear – directly or indirectly, in an EU CCP on the basis of all its own activity in derivative contracts belonging to the categories referred to in Article 7a(6) of EMIR.
