# 1 Executive Summary

#### **Reasons for publication**

Over the last years, ESMA has published draft RTS amending Commission Delegated Regulation (EU) 2019/815 ('the RTS on ESEF') to reflect the 2019, 2020 and 2021 updates to the IFRS taxonomy. These draft RTS were published in the Official Journal of the European Union on 16 December 2019 as Commission Delegated Regulation (EU) 2019/2100, on 18 December 2020 as Commission Delegated Regulation (EU) 2020/1989 and on 7 March 2022 as Commission Delegated Regulation (EU) 2022/352 respectively.

In the same way, the draft RTS contained in this Final Report follows publication of the 2022 IFRS Taxonomy and aims to update the taxonomy contained in the RTS on ESEF to reflect the latest available version of the IFRS Taxonomy, in order to promote electronic reporting which is up-to-date with the applicable reporting standards. The revised draft RTS will facilitate implementation of the tagging requirements and the highest comparability of electronic financial statements drawn up in accordance with IFRS at European and at global level for end-users.

#### Content

The draft RTS contained in this Final Report replaces Annexes I (glossary of terms), II (mandatory mark-ups) and VI (schema of the core taxonomy) of the RTS on ESEF to reflect the latest update of the IFRS Taxonomy, i.e. its 2022 update, which was published by the IFRS Foundation on 24 March 2022.

The draft RTS provides a purely technical amendment of the original RTS. Accordingly, in line with Article 10 of the ESMA Regulation<sup>1</sup>, ESMA did not conduct an open public consultation of the draft RTS, analyse the potential related costs and benefits or request the advice of the Securities and Markets Stakeholder Group because such consultations and analyses would have been highly disproportionate in relation to the scope and the impact of the draft RTS.

#### **Next Steps**

ESMA has submitted this Final Report containing in Annex I the draft RTS to the European Commission (EC). The EC has three months to decide whether to endorse the technical standard.

<sup>&</sup>lt;sup>1</sup> Regulation (EU) No 1095/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Securities and Markets Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/77/EC (OJ L 331, 15.12.2010, p. 84).

# 2 Background to the draft RTS contained in Annex I

## 2.1 Legal basis

Based on the empowerment contained in Article 4(7) of the Transparency Directive<sup>2</sup> (hereafter, the 'TD'), the European Securities and Markets Authority (hereafter, 'ESMA') published on 18 December 2017 a draft RTS specifying a single electronic format (hereafter, 'the ESEF') in which all annual financial reports of issuers with securities listed on regulated markets shall be prepared. Following its adoption by the Commission on 17 December 2018, that draft RTS was published in the Official Journal of the European Union on 29 May 2019 as Commission Delegated Regulation (EU) 2019/815 (hereafter, 'the RTS on ESEF'). The RTS on ESEF applies to annual financial reports containing financial statements for financial years beginning on or after 1 January 2020<sup>3</sup>.

The draft RTS contained in Annex I is a technical update to the existing Regulation to reflect updates in the IFRS taxonomy and to provide further support to preparers in tagging their financial statements. The draft RTS is prepared on the basis of the empowerment contained in Article 4(7) of the TD.

In line with Article 10 of the ESMA Regulation, ESMA did not conduct an open public consultation of this draft RTS, analyse the potential related costs and benefits or request the advice of the Securities and Markets Stakeholder Group since these consultations and analyses would have been highly disproportionate in relation to the scope and impact of the draft RTS. The technical update does not constitute new policy or substantial changes to existing policy.

# 2.2 Background

The RTS on ESEF established that the taxonomy to be used to mark-up IFRS consolidated financial statements shall be based on the IFRS Taxonomy, which is prepared and updated by the IFRS Foundation. The IFRS Foundation annually updates the IFRS Taxonomy to reflect the issuance of new or amended IFRSs that affect IFRS Taxonomy content, the analysis of disclosures commonly reported in practice, or improvements to the general content or technology of the IFRS

-

<sup>&</sup>lt;sup>2</sup> Directive 2004/109/EC of the European Parliament and of the Council of 15 December 2004 on the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market and amending Directive 2001/34/EC (OJ L 390 31.12.2004, p.38)

<sup>&</sup>lt;sup>3</sup> In March 2021, taking into account that it was the first year of preparation and considering the constraints on issuers' resources due to the COVID-19 pandemic, Article 4(7) of the TD was amended in order to grant Member States the option to allow their issuers to apply the ESEF requirements starting from 1 January 2021, provided that they notify the European Commission of their duly justified intention to do so. 23 Member States took up the option to delay.

Taxonomy. Each annual taxonomy reflects the presentation and disclosure requirements of the IFRS Standards as issued by the International Accounting Standards Board as at 1 January of that year.

Consequently, ESMA has published draft RTS to update the ESEF taxonomy to reflect the publication of the 2019, 2020 and 2021 IFRS taxonomy published by the IASB on 27 March 2019, 16 March 2020<sup>4</sup> and 24 March 2021<sup>5</sup>. The draft RTS were published in the Official Journal of the European Union respectively on 16 December 2019 as Commission Delegated Regulation (EU) 2019/2100, on 18 December 2020 as Commission Delegated Regulation (EU) 2020/1989 and on 7 March 2022 as Commission Delegated Regulation (EU) 2022/352.

On 24 March 2022, the IFRS Foundation published the 2022 IFRS taxonomy.

Since 2017, ESMA has also set up a dedicated mailbox (esef@esma.europa.eu) through which stakeholders submit comments or suggestions on ESMA's ESEF work. ESMA continuously assesses the feedback received and therefore, whether the RTS and/or other guidance material published at ESMA's own initiative could or should be improved.

#### 2.3 Content

The RTS on ESEF states that its provisions should be updated periodically based on draft RTS prepared by ESMA. The annual update of the taxonomy to be used for the ESEF is expected to promote electronic reporting which is up to date with the applicable reporting standards.

Accordingly, the draft RTS contained in this Final Report amends the RTS on ESEF to reflect the 2022 update to the IFRS taxonomy and provide additional guidance to preparers for tagging their financial statements. In particular, the draft RTS replaces Annex I that provides the glossary of terms used in the RTS and requires minor fixes within three rows (esef\_cor, esef\_all and ifrs-full); Annex II that provides the mandatory mark-ups to be used by issuers in the preparation of their iXBRL financial statements and requires specific amendments in its Table 2 to add new elements in the list of accounting policies and list of notes; and also, Annex VI that contains the description of the core taxonomy schema to be used for marking up the IFRS consolidated financial statements and requires the update of the list of taxonomy elements to include the missing elements. Although only parts of those Annexes need to be updated, the draft RTS replaces them in their entirety to

<sup>&</sup>lt;sup>4</sup> https://www.ifrs.org/issued-standards/ifrs-taxonomy/ifrs-taxonomy-2019/

<sup>&</sup>lt;sup>5</sup> IFRS - IFRS Taxonomy 2021

<sup>&</sup>lt;sup>6</sup> IFRS - IFRS Accounting Taxonomy 2022

enhance, in particular, the readability for stakeholders of the applicable tables of the 2022 update when consolidating the legal text.

The draft RTS will facilitate implementation of the tagging requirements as well as the highest comparability of electronic financial statements drawn up in accordance with IFRS at European and at global level for end-users. This draft RTS specifies for each element of the core taxonomy all the relevant label types included in the IFRS 2022 Taxonomy.

In order to minimise the burden for preparers, this amendment to the RTS on ESEF is mandatorily applicable for financial years beginning on or after 1 January 2023. Early application is allowed. Therefore, it is expected that for annual financial reports including financial statements beginning on or after 1 January 2022, issuers will be allowed to use either the 2021 ESEF taxonomy or the 2022 ESEF taxonomy introduced by this draft RTS.

Early education and implementation of the 2022 ESEF taxonomy is especially relevant and encouraged for issuers for whom one or more core taxonomy elements included in the 2022 ESEF taxonomy better reflects the accounting meaning of the disclosure being marked up compared to the 2021 ESEF taxonomy. Please note that the draft RTS does not foresee the possibility to use the 2021 and the 2022 ESEF taxonomy concurrently within one single ESEF filing, but only the possibility to choose whether to apply the 2022 ESEF taxonomy early.

# 2.4 Next Steps

ESMA has submitted this Final Report to the European Commission (EC). The EC has three months to adopt the regulatory technical standards. Once the Commission adopts and notifies them to the European Parliament and the Council, they each have a right to object to those standards for a period of three months, which may be extended by either the European Parliament or the Council by a further three months.

As the IFRS Standards evolve, the IFRS Taxonomy is expected to continue to evolve with it in future years. Accordingly, ESMA plans to continue to update the RTS on ESEF as needed to reflect future updates of the IFRS Taxonomy.

#### Draft

#### COMMISSION DELEGATED REGULATION (EU) .../..

of [...]

amending Delegated Regulation (EU) 2019/815 as regards the 2022 update of the taxonomy laid down in the regulatory technical standards on the single electronic reporting format

(Text with EEA relevance)

#### THE EUROPEAN COMMISSION.

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2004/109/EC of the European Parliament and of the Council of 15 December 2004 on the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market and amending Directive 2001/34/EC<sup>7</sup>, and in particular Article 4(7) thereof,

#### Whereas:

(1) Commission Delegated Regulation (EU) 2019/815 specifies the single electronic reporting format, as referred to in Article 4(7) of Directive 2004/109/EC, to be used for the preparation of annual financial reports by issuers. Consolidated financial statements included therein are prepared either in accordance with International Accounting Standards, which are commonly referred to as International Financial Reporting Standards ('IFRSs'), adopted pursuant to Regulation (EC) No 1606/2002 of the European Parliament and of the Council<sup>9</sup>, or in accordance with IFRSs as issued by the International

<sup>&</sup>lt;sup>7</sup> OJ L 390, 31.12.2004, p. 38.

<sup>&</sup>lt;sup>8</sup> Commission Delegated Regulation (EU) No. 2019/815 of 17 December 2018 supplementing Directive 2004/109/EC of the European Parliament and of the Council with regard to regulatory technical standards on the specification of a single electronic reporting format (OJ L143, 29.5.2019, p.1).

<sup>9</sup> Regulation (EC) No 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards (OJ L 243, 11.9.2002, p. 1).

- Accounting Standards Board ('IASB') which, based on Commission Decision 2008/961/EC¹o, are considered as equivalent to IFRSs adopted pursuant to Regulation (EC) No 1606/2002.
- (2) The core taxonomy to be used for the single electronic reporting format is based on the IFRS Taxonomy and is an extension of it. The IFRS Foundation annually updates the IFRS Taxonomy to reflect, amongst other developments, the issuance of new IFRSs, the amendment of existing IFRSs, the analysis of disclosures commonly reported in practice, or improvements to general content or technology of the IFRS Taxonomy. Therefore, it is necessary to update the regulatory technical standards to reflect each annual update of the IFRS Taxonomy.
- (3) In March 2022, the IFRS Foundation published the updated version of the IFRS Taxonomy. This update should therefore be reflected in Delegated Regulation (EU) 2019/815.
- (4) Annexes I, II and VI of Delegated Regulation (EU) 2019/815 should be updated to reflect the 2022 update to the IFRS Taxonomy and provide additional guidance to preparers for tagging their financial statements. Although only parts of those Annexes need to be updated, this Regulation replaces them in their entirety to enhance, in particular, the readability for stakeholders of the applicable tables of the 2022 update. The update will facilitate implementation of the tagging requirements as well as the highest comparability of electronic financial statements drawn up in accordance with IFRS at European and at global level for end-users.
- (5) In order to allow enough time for the effective implementation of the requirements by issuers, and to minimise compliance costs, this Regulation should apply to annual financial reports containing financial statements for financial years beginning on or after 1 January 2023. However, issuers should be allowed to adopt the taxonomy specified in this Regulation already for financial years beginning on or after 1 January 2022.
- (6) Delegated Regulation (EU) 2019/815 should therefore be amended accordingly.
- (7) This Regulation is based on the draft regulatory technical standard submitted by the European Securities and Markets Authority to the Commission.
- (8) This Regulation is a technical update to Commission Delegated Regulation (EU) 2019/815 to reflect updates in the IFRS taxonomy and provide additional guidance to mark up IFRS financial statements. As such it does not constitute new policy or a substantial change to existing policy. ESMA has not conducted open public consultations on the draft regulatory technical standards on which this Regulation is based, analysed the potential related costs and benefits or requested the advice of the Securities and Markets Stakeholder Group

#### Article 1

#### Amendments to Delegated Regulation (EU) 2019/815

Delegated Regulation (EU) 2019/815 is amended as follows:

- (1) Annex I is replaced by the text in Annex I to this Regulation;
- (2) Annex II is replaced by the text in Annex II to this Regulation;
- (3) Annex VI is replaced by the text in Annex III to this Regulation.

#### Article 2

#### Transitional provision

By way of derogation from Delegated Regulation (EU) 2019/815 as amended by Commission Delegated Regulation (EU) 2022/352<sup>12</sup>, this Regulation may be applied to annual financial reports containing financial statements for financial years beginning before 1 January 2023.

#### Article 3

#### Entry into force and application

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2023 to annual financial reports containing financial statements for financial years beginning on or after 1 January 2023.

However, Article 2 shall apply from the date of entry into force of this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
