1. The Authority

ESMA is an independent Paris-based EU Authority. ESMA’s mission is to enhance investors’ protection and promote stable and orderly financial markets. This mission is derived from ESMA’s founding Regulation⁴ and encompasses three objectives:

- **Investors' protection**: to have the needs of financial consumers better served and to reinforce their rights as investors while acknowledging their responsibilities;
- **Orderly markets**: to promote the integrity, transparency, efficiency, and well-functioning of financial markets and robust market infrastructures, and
- **Financial stability**: to strengthen the financial system in order to be capable of withstanding shocks and the unravelling of financial imbalances while fostering economic growth.

ESMA achieves these objectives through four activities: (i) assessing risks to investors, markets and financial stability, (ii) completing a single rulebook for EU financial markets; (iii) promoting supervisory convergence; and (iv) directly supervising specific financial entities.

ESMA achieves its mission within the European System of Financial Supervision (ESFS) through active co-operation with National Competent Authorities (with securities market regula-

² In line with point 5 of Article 24a of the Regulation of the European Parliament and the Council amending Regulation (EU) No 648/2012 as regards the procedures and authorities involved for the authorization of CCPs and requirements for the recognition of Third-Country CCPs (available here: https://data.consilium.europa.eu/doc/document/PE-88-2019-REV-1-en/pdf), the term of office of the Chair and the independent members of the CCP Supervisory Committee shall be five years and may be extended once.

tors) as well as with the European Banking Authority (EBA) and the European Insurance and Occupational Pensions Authority (EIOPA). ESMA has a unique position within the ESFS as it exercises direct supervisory responsibilities at Union level on specific entities such as credit rating agencies, trade repositories and systemically important third country CCPs.

2. The CCP Supervisory Committee

The review of the European Markets Infrastructure Regulation (EMIR, Regulation EU (No) 648/2012) enhanced the role of ESMA in relation to the authorisation of CCPs established in the Union (EU-CCPs) and the recognition of third-country CCPs (TC-CCPs) and provided ESMA with direct supervisory responsibilities over systemically important TC CCPs. In this regard, EMIR envisages the establishment of a distinct committee within ESMA, the CCP Supervisory Committee for the purposes of preparing draft decisions to be taken by the Board of Supervisors, ESMA’s decision-making body, and for carrying out certain tasks.

The CCP Supervisory Committee is composed of a Chair, two Independent Members and representatives of the national competent authorities with an authorised CCP as voting members, as well as central banks of issue that have requested membership to the Committee as non-voting members.

3. Job framework and profile

The CCP Supervisory Committee

The tasks and responsibilities of the CCP Supervisory Committee are laid down in [Article 24a of] EMIR, and include among others:

- Prepare draft decisions to be taken by the Board of Supervisors in relation to TC-CCPs, including the recognition of all TC CCPs, the supervision of systemically important TC CCPs (Tier 2 CCPs) and potentially the recommendation that a TC-CCP should not be recognised where that CCP or some of its clearing services are of substantial systemic importance. As envisaged in EMIR, such decisions and recommendations will be exercised in consultation or in agreement with the relevant central banks of issue and, where applicable, the European Systemic Risk Board (ESRB);

5 The Board of Supervisors is the decision-making body of ESMA. It is chaired by ESMA Chair and composed of the heads of the national competent authorities (NCAs) in the European Union (EU) and the European Economic Area (EEA) responsible for securities regulation and supervision with non-voting representatives from the European Commission, the European Systemic Risk Board (ESRB), the European Banking Authority (EBA), the European Insurance and Occupational Pensions Authority (EIOPA) and the European Free Trade Association Surveillance Authority (EFTA Surveillance Authority).

• Promote supervisory convergence among national competent authorities in relation to the authorisation and the supervision of EU CCPs through (i) conducting annual peer reviews, (ii) initiating EU-wide CCP stress testing exercises, (iii) preparing draft opinions on draft decisions submitted by national competent authorities in relation to EU-CCPs and (iv) promoting exchanges of information on relevant developments related to EU-CCPs; and

• Request the Board of Supervisors to consider whether the adoption of guidelines, recommendations and opinions by ESMA is necessary in order to address a lack of convergence and coherence in the application of EU law among competent authorities and colleges.
